Pendulum and Rock Island Joint Manufacturing and Technology Center Sign Direct Sales Basic Ordering Agreement

ROCK ISLAND, Ill.--(BUSINESS WIRE)--Pendulum Resources LLC announced that it has signed a Direct Sales Basic Ordering Agreement (BOA) with the United States Government, Rock Island Arsenal Joint Manufacturing and Technology Center (JMTC). The JMTC has a manufacturing and rebuild mission and unique defense production capabilities and facilities. The JMTC is the Army's only vertically integrated metal manufacturing facility and has the only remaining U. S. Army foundry.

Through this BOA, Pendulum seeks to offer the production and service capabilities of JMTC to private sector companies. This BOA will enable industry to take advantage of the enormous manufacturing and service capability of the JMTC while assisting the Government in maximizing utilization of the capacity of the facilities, reducing or eliminating the cost of ownership of the facilities, and preserving skills or equipment related to the core competency of the facilities.

"The JMTC is well reputed as one-of-a-kind in the nation. It has state-of-the-art manufacturing equipment as well as an excellent technological support staff. We look forward to an intensive marketing effort to publicize the JMTC capabilities yielding a win-win situation for the JMTC and industry," said Al Kruse, Manager of Pendulum Resources LLC.

The Rock Island Arsenal Joint Manufacturing and Technology Center is the largest government-owned weapons manufacturing arsenal in the western world and is a center of technical excellence for weaponry and support equipment. Specifically, the JMTC manufactures gun mounts, artillery carriages, recoil mechanisms and other equipment for the Armed Forces as well as assembles tools, sets, kits and outfits that support equipment in the field. JMTC is ISO 9001:2000 registered and is the Army's only two-time Shingo Prize Public Sector Medallion Recipient for Forward Repair Systems.

Pendulum Resources LLC is a service-disabled, veteran-owned small business based in Rock Island, Illinois. The management team has substantial expertise in all types of government contracting and contract administration. Pendulum principals have unique and extensive experience in redeveloping and re-using government-owned real estate, facilities and equipment. They work closely with government agencies to prepare and commercialize facilities, assets and technologies, and they have assisted firms in locating and gaining access to government facilities and equipment to support their commercial efforts.
